Fast Facts

Founded in 1963, Leesburg Regional Medical Center (LRMC) is Lake County’s largest tertiary care hospital and part of Central Florida Health, a locally owned and governed not-for-profit healthcare system and the most comprehensive provider of healthcare services in the region.

LRMC is committed to improving the health and quality of life of the individuals and communities it serves. The hospital is comprised of 329 acute care beds, a senior behavioral health center, day surgery center, multiple outreach laboratory locations, community wellness center, wound care center and a state-of-the-art urgent care center.

LRMC offers advanced cardiac care at its Heart Institute, which includes one of the largest open-heart programs in Florida. The hospital also offers advanced orthopedic care at its dedicated inpatient Joint Center which was recently awarded the Total Hip and Total Knee Replacement Gold Seal of Approval by The Joint Commission, neurosurgery, stroke care, obstetrics and pediatrics, advanced imaging and nationally-recognized cancer care.
Leesburg Regional Medical Center

Accreditations and Awards

• Gold Seal of Approval® Core Certification for Hip Replacement and Knee Replacement by The Joint Commission
• Named “High Performing Hospital in Heart Failure and COPD Treatment” by U.S. News & World Report
• Cancer Program 3-Year Accreditation with Commendation, Commission on Cancer
• Accredited Chest Pain Center with PCI and Resuscitation by the American College of Cardiology
• “150 Top Places to Work in Healthcare” by Becker’s Hospital Review
• Gold Level Recognition by the American Heart Association’s Workplace Health Achievement Index
• Gold Seal of Approval® Advanced Certification for Primary Stroke Centers by The Joint Commission

Latest Advancements

• A $29 million emergency department expansion increased the original footprint of the hospital for the first time in 55 years. The expansion features 24 new patient beds, fully equipped triage rooms, trauma-sized rooms for critical care, a fast track area for lower-acuity patients, and a spacious atrium lobby.
• The most advanced technologies are now available for women’s imaging at LRMC. In 2019, the hospital installed the Senographe PristinaTM, the next generation in 3-D mammography. LRMC is also one of the only facilities in the state to utilize SensorySuite for a calming environment during your mammogram.
• LRMC was one of the first hospitals in Central Florida to offer the Micra® Transcatheter Pacing System (TPS), the world’s smallest pacemaker device.
• In 2019, Cardiopulmonary Rehabilitation moved into an updated space on the hospital’s first floor providing patients with a larger and more advanced space to exercise and become restored.
